## Laser cutting and Laser welding machine

### Machine dimension:

Cutting area: 5.000 x 18.000 mm

Welding area: 5.000 x 23.000 mm

Thickness of cutting up to 20 mm

Thickness of welding up to 10 mm

IPG YSL- 6000 W fiber laser.

It has a nameplate output power up to 6/8 kW and can weld different grades with a gap of 2 mm.  
Grade types: inox; stainless steel; carbon steel wear resistant steel

## Company Profile:

- Business name: Moncini Industrie srl
- Registered seat: Via Nazionale,55 25048 -Sonico –Brescia -Italia
- Entered in: Commercial register of the *Camera di Commercio Industria di Brescia*

## Company governing bodies:

- **Board of directors:** Giovan Battista Chairman  
Moncini-Emanuele Moncini-Marcella Bonetti
- **Supervisory Board:** Antonio Minervini Chairman  
Andrea Pagani-Carlo Remonato

## Main product:

- Coachwork for railway and underground rolling stock
- Roof; floor;sidewall longbeamsfor EMU –DMU-METRO and TRAIN
- Machine tool
- Construction of textile machinery
- Construction of mobile crane telescopic arm; towers and frame heat exchanger-
- Poles, pylons for ski lifts cablecars and telecommunication tower

## Material grade:

Stainless steel

Aluminium

Carbon Steel
